BAKERY DOUGH MIXER MANUFACTURER

Italpan is a leading bakery dough mixer manufacturer located in Italy. The bakery machinery supplier produces quality machines whose durability and performance can not be compromised.

IMPROVE BAKING PRODUCTION

Italpan focuses to reduce labor and improve quality of doughs produced by most small and medium bakery industries through its production of the spiral dough mixer, whose functionality and performance in the task is highly efficient. The heavy duty construction approach to manufacturing the dough mixers guarantees low chances of breakdown and therefore low maintenance costs as well.

CHARACTERISTICS

Italpan dough mixers are fitted with a stainless steel bowl and grid to prevent their chances of wear. The machines are also designed with high power reservation capabilities to conserve the overall power consumption in bakeries. Fitted with an emergency stop, the dough mixers are safe to use as this stops the machine from operating when the grid is activated.
