## BAKERY SHEETER MANUFACTURER

Italpan is a dominant bakery sheet manufacturer in the bakery machinery industry. The commonly supplied models of bakery sheeter include the Sheeter sf/500-600 and Bench Sheeter SF 500/710-950. These sheeters are professionally designed to handle all kinds of doughs regardless of their size.

## EFFICIENT AND EASY TO USE BAKERY SHEETERS

Their scrapers are removable and can thus be removed while cleaning the machine. Bakery sheeters from Italpan are fitted with rolling cylinders that are excellently polished with a chromium plate. Their bearings are well screened to ensure the safety of the machine for human use.

## MOUNTED, WITH WHEELS

To ease mobility, the frame machines can be mounted on wheels to ease movement. The bakery sheeter manufacturer can supply any of these machine models with a stainless steel or painted base.
