## DOUGH ROLLER SHEETER

A dough roller sheeter is used to work on all types of dough, even the ones that are very thin. They are commonly used for all types of food processing factories and catering units. The best dough roller sheeter equipment consists of; the SF/500-600 and the bench sheeter SF500/710-950.

### THE SF/500-600 DOUGH ROLLER SHEETER

It is fully mobile equipment that works on all types of dough and thickness levels. It is easy to clean; it also has screening to avoid contamination and even guarantees operation safety.

### THE BENCH SHEETER SF500/710-950

This is a high performing appliance ideal for use in small areas. It has all the aspects of the SF/500-600 i.e. rolling cylinders and adjustable speed conveyors.
