SHEETER MOULDER SUPPLIER

The Italian sheeter moulder supplier, Italpan, has majored in producing outstanding sheeter moulders for your bakery. The firm produces three main types of sheeter moulders that are; Sheeter Moulder ITP-600 fitted with four cylinders, Baguette Moulder Mod. ITP 700, and the Sheeter Moulder ITP/500-600 fitted with two cylinders.

TOP QUALITY COMPONENTS

Some of the distinct features of the Italpan sheeter moulders are that the scrapers are removable and can be cleaned daily, the rolling cylinders are calibrated and chromium plated, and consist of an adjustable speed conveyor that prevents wrinkles on the pastry.

SAFE AND EASY TO USE MACHINES

The moulders are also fitted with a low voltage electrical supply that can be regulated by hand or foot by using a pedal, with the electrical system of the moulders connected to safety guards that are accident proof.
