TARALLI MACHINE SUPPLIER

Italpan supplies bakeries with fully stainless steel construction that ensure they last you long. The stainless steel also prevents the taralli machines from rust, a major cause of machine wear. The machines are also provided with LPG or natural gas burner depending on your choice.

taralli machine supplier | Italpan.com

SAFETY FIRST

The machines are fitted with a 24-volt control panel that conservatively supplies power to the machine. Italpan taralli machines are also fixed with an automatic gas cock closure in case the flame goes out.

MODELS OF TARALLI MACHINES

The machines are also designed in four models for the different types of trays. This leading taralli machine supplier offers two models of taralli machines; the taralli warmer and the taralli warmer ST. Taralli machines from Italpan are efficient, energy saving and designed from a modern perspective.
